### **Training Session Plan - Social Work Students**

Program Title: Family Violence Skills Training Program

**Program Length**: Two days whole, or separate 2-hour tutorials.

NOTE: This program has been specifically designed to allow facilitators to 'lift out' individual 2-hour tutorials on key topics. These can be inserted into a range of higher education programs to match coursework requirements in areas such as social policy, methodology, ethics or clinical practice. It is intended that course coordinators adapt and apply the contents and materials to their specific needs. The program activities are directed towards undergraduate or beginning social workers but can be adapted to more experienced audiences if required.

Intended Participants: Undergraduate social work students and beginning social workers

### **Facilitator Preparation:**

The AVERT Family Violence Training Package is a multi-disciplinary training package that will be delivered to different professions with different skill sets. Facilitators should tailor the package for their particular audience and context. The package has been constructed with an assumption that an experienced trainer from within relevant professional groups will deliver the training.

Prior to delivering the program, it is essential for the facilitator to view all the video resources and read all the papers that are indicated for use in the session plans. These are listed for quick review at the end of this document and are located on the website under For Trainers/Resources/By Type. It is also recommended that facilitators practice any of the activities that are unfamiliar to them. This will assist in having a thorough understanding of the materials and being well prepared to answer any questions that participants may raise. This preparation also provides an opportunity for the facilitator to clarify any hesitations or queries they may have with any aspect of the training. Family violence can be an emotional and controversial topic in many groups. Practicing ways of responding to anticipated reactions will assist in the creation of a quality education experience.

When tailoring a package for a particular audience, facilitators may need to prepare some of their own PowerPoints and Handouts, drawn from the facilitator notes and general materials. A template PowerPoint and Fact Sheet is provided for this purpose on the website under Resources/ By Type/ Learning Materials.

Named fact sheets, discussion papers and resources for training exercises are all provided and can be found on the website under the program title. Points to emphasise are indicated in the session plans as well as in the detailed outline of training exercises.

All exercises, fact sheets, PowerPoints, discussion papers and course evaluation forms can be found on the website under Resources/ By Type.

Program timing in the session plan is a rough estimate and is based on a group of between 20 – 25 participants. However, the level of participation of each group necessarily impacts the amount of time that each activity will take. It is envisaged that each facilitator will know which exercises need to be curtailed if the program is running over time.

In many cases various sections of the Video Resources have been broken up into chapters (e.g. Scenarios; Overview of Family Law system). The appropriate chapters for specific exercises within the training programs are indicated as required. Chapters are listed under Resources/ By Type on the website. Click on the chapter required to start viewing.

### **Handouts for the Program:**

	older of additional reading can be provided for each participant containing the following ERT Discussion Papers:
	Legal Frameworks
	Responding to Diversity
	Screening, Risk Assessment and Safety Planning
	Prevention Strategies: Involving and Engaging Perpetrators
	Multidisciplinary Collaboration and Integrated Responses to Family Violence
The	folder should also contain:
П	Pre-course and post-course evaluation forms

### Day One

TIME	ACTIVITY SEQUENCE & FACILITATOR NOTES	RESOURCES REQUIRED
15 min	Welcome	
	☐ Acknowledgement of Indigenous custodians of the local area	Name stickers and pens
	☐ Introductions – after the facilitator has been introduced, ask the participants to share with the person next to them (on both sides), their name, where from and something they already know about family violence	PowerPoint: Social Work Learning Outcomes
	☐ Invite any initial comments about Family Violence and what participants know/do not know	
	☐ Briefly outline aims of the program	
	☐ Alert participants to the sometimes challenging and distressing content in this program and provide group rules and support for debriefing if required	
	☐ 'Housekeeping' and timeframe details.	
105 min	What is Family Violence?	
	Ask participants to brainstorm their ideas about family violence. Briefly draw out themes and highlight myths and facts using <i>Myths and Facts</i> Fact Sheet.	Fact Sheet: Myths and Facts Fact Sheet: Duluth
	Emphasise:	Wheel of Violence
	☐ Family violence is also sometimes called domestic violence, spouse abuse, or intimate partner violence.	PowerPoint: Definitions of Family Violence
	☐ Family violence is fundamentally about the use of power and control	Testimonial: <i>Lucy</i> on DVD 5
	☐ It is not only physical abuse	PowerPoint: Impact of
	☐ It is a pattern of behaviour over time	Family Violence on Adult
	☐ It occurs in all populations and age groups	Victims
	☐ Family violence has long-term harmful effects upon victims and also children who live in households where it is occurring. (Approximately 50% of children exposed to family violence develop long term mental health issues if recovery from the immediate trauma is not facilitated.)	
	Present the PowerPoint: <i>Definitions of Family Violence</i> as further explanation of the previous points.	
	Handout a copy of the <i>Duluth Wheel of Violence</i> Fact Sheet and talk through the components of the wheel.	
	Now show Lucy's Testimonial.	

TIME	ACTIVITY SEQUENCE & FACILITATOR NOTES	RESOURCES REQUIRED
	NOTE: The facilitator may wish to explain that during the training there will be several video screenings and it is important to highlight the difference between viewing for entertainment and viewing as a 'professional analyst'. It is encouraged that participants take written notes of key messages and concepts that stand out for them as they watch.  In small groups, ask participants to note the dynamics of family violence that are evident within the Testimonial that relate to the <i>Duluth Wheel</i> .	
	Emphasise:	
	☐ The significance of non-physical violence and in particular, social isolation as a result of living with family violence. For instance, how does the violence impact the victim's relationship with family and friends? The fear that results from living with violence becomes an 'organising principle' of a victim's life. It is something that shapes their behaviours and limits relationships and social activities	
	☐ The multiple impacts of family violence on adult victims. (Utilise the <i>Impacts on Adult Victims</i> PowerPoint if required)	
15 minutes	Break	
60 minutes	Indicators of Family Violence – Power and Control	
minutes	What do we mean when we say family violence is about power?	Exercise: Defining Violence
	Invite comments and questions from the group.	Defining Violence Cards.
	Follow the detailed facilitator notes to conduct the <i>Defining Violence</i> Exercise.	(From <i>Defining Violence</i> Exercise sheet) One set for each group.
	Emphasise:	
	☐ Family violence is not relationship conflict	
	□ By far the overwhelming majority of victims of family violence are women. Family violence is situated within a history of gender inequality and male privilege. This context supports male perpetrators to use powerful tactics of control. However, contemporary gender roles are undergoing changes that make the use of violence more available to women	
	☐ In order to notice and screen for family violence we must be aware of controlling behaviour and its effects	

TIME	ACTIVITY SEQUENCE & FACILITATOR NOTES	RESOURCES REQUIRED
60 min	Gary and Bronwyn's Story (Power and Control Continued)	
	Facilitator's note: It is important to note that people who have experienced Family Violence and whose safety may be at risk are not required to attend Family Dispute Resolution. Legal advice should be encouraged so that people can understand the options available to them. It is possible to apply under section 60i(9) of the Family Law Act for an exception so that participation in Family Dispute Resolution is not required where there has been Family Violence or there is a risk of violence. The other option is to attend an intake and assessment interview at a Family Relationship Centre or other Family Dispute Resolution provider to examine whether or not Family Dispute Resolution is appropriate.  Explain that participants are going to view a scenario and they are to assume that it is a case in which they will be involved so they will need to watch and take notes carefully.  Show Gary and Bronwyn's Story and conduct the Personal Profile Exercise. Follow the detailed facilitator notes.  Ask the small groups to consider what questions enabled the family dispute resolution practitioner to investigate Gary's strategies of power and control.  Emphasise:  □ Initial, 'inaugurating' physical violence at the beginning of the marriage that controlled Bronwyn for many years  □ Signs of escalation  □ The effects of long term violence on Bronwyn evident in her presentation.	Scenario: Gary and Bronwyn's Story on DVD 2  Exercise: Personal Profile
45 min	Lunch	
60 min	Indicators of Family Violence – Assessing Risk	Exercise: <i>Risk</i>
	This activity is designed to support participants to look for the combination of factors that present risk and enables the facilitator to point out the use of power and coercive control.  Conduct the <i>Risk Assessment</i> Exercise following the detailed facilitator notes	Assessment  Sets of Risk Factor Cards for each small group (from the Risk Assessment Exercise)  Risk Assessment Scales Handout for each participant (from the Risk Assessment Exercise)

TIME	ACTIVITY SEQUENCE & FACILITATOR NOTES	RESOURCES REQUIRED
15 min	Break	
60 min	Dimensions and Dynamics of Family Violence - Quiz	
	This exercise draws together knowledge covered during the whole day and within the pre-reading. The facilitator can use it to summarise key messages and make necessary clarifications.	Exercise: Dynamics of FV Quiz without answers for each participant.
	☐ Distribute a copy of the <i>Dynamics of Family Violence</i> Quiz (without the answers) to each participant and ask them to answer the quiz in small groups.	Exercise: <i>Dynamics of FV Quiz</i> <b>with</b> answers for each participant.
	☐ Go through the answers as a whole group. (Prizes for tables who get more than 75% of the answers correct are an option)	Sweets or Promotional materials such as pens, key rings etc as prizes (optional).
	☐ Remind participants that the background to this quiz is in the pre-reading sent to them.	(optional).
15 min	Closing Round	
	Invite participants to report to the whole group in a 'round', something from the day that they will share with others.	

### Day Two

TIME	ACTIVITY SEQUENCE & FACILITATOR NOTES	RESOURCES REQUIRED
30 min	Welcome and review	
	Ask participants to each name something they learnt or a question that has arisen for them from yesterday.	
	Use this round to re-iterate the important key messages from the day and respond to any clarifications.	
	Establish the following as a baseline for social work knowledge:	
	☐ Family violence is common and will be present in all social work settings	
	☐ Social workers need to be able to identify and respond to family violence issues	
	☐ Family violence is a child protection issue	
	☐ Family violence issues intersect with: mental health issues; substance use; parenting problems; relationship problems; separation and divorce; and child protection.	
90 min	Case Study - Tony and Jessica	
	Explain that participants are going to view a story about a couple who have separated some years ago and have court orders in place regarding parenting arrangements.	Scenario: <i>Tony and Jessica's Story</i> on DVD 2
	<b>NOTE:</b> The facilitator may need to briefly explain the role of the family dispute resolution practitioner to the group.	
	Ask participants to watch the story and take notes carefully, to record their observations of the following:	
	☐ What were the indicators that alerted the dispute resolution practitioner to the presence of family violence?	
	☐ What were the effects on Jessica of Tony's behaviour?	
	☐ What measures did the practitioner consider putting in place to create more safety for Jessica?	
	In pairs, discuss your observations and create a list of responses to each of the above questions.	
	Ask each pair in turn to report back their answers (adding only new things as the reporting progresses). Generate a summary list of answers to each question on the white board.	
	Ask the group - What ethical dilemmas or concerns stood out for you in this story?

Individual needs – what does your character specifically need in order to overcome the challenges?  Possible methodologies and referral options to meet the needs – what can you do as a social worker to help recovery?  Possible ethical dilemmas – in responding to the needs of the individual, what ethical questions arise for you?  Ask each small group to discuss what they have seen and develop a list of issues, needs, responses and dilemmas on a sheet of butcher's paper. In order to be familiar with the above issues it is important for the facilitator to have read both the AVERT Paper Dimensions, Dynamics and Impact of Family Violence and McIntosh et al report (see resources column here).  Emphasise:  Children who are exposed to violence and conflict require their own attention and support to recover and reestablish a "protective cocoon"  The old assumptions that children don't notice or simply 'get over' trauma quickly are significantly refuted by research over the past 20 years  Infants and pre-school children are seriously impacted by family violence. This includes experiencing neurological harm (that occurs without physical assault happening to them)  Children who are compliant and well behaved should not be assumed to be ok, rather compliance maybe a sign of fear and trauma.  Now return to the story of Bronwyn and Gary.
